

Professional Summary

Dedicated Computer Science undergraduate with a strong foundation in **Full-Stack Development**, Cloud Computing, and DevOps. Proven track record in architecting complex, AI-driven applications and scalable APIs. Expert in modern development workflows including Prompt Engineering and Machine Learning.

Technical Expertise

WEB TECH

Next.js, React, Tailwind CSS, JS (ES6+), HTML5/CSS3

BACKEND

Node.js, Express.js, RESTful APIs, JWT Auth

DATABASES

PostgreSQL, MongoDB, MySQL, SQL Server

DEVOPS/TOOLS

Git, GitHub, Vercel, Render, Postman, LaTeX

Key Projects

Ryze AI

GENERATIVE AI ACCELERATOR PLATFORM

Architected a comprehensive SaaS platform focusing on enterprise AI integration. Implemented Intelligent Document Processing (Neuro Reader) and Automated Agents for data synthesis.

#Next.js

#GenAI

#Tailwind

TaskFlow API

SCALABLE TASK MANAGEMENT API

Developed a robust RESTful API handling complex task synchronization and user data persistence with JWT security and encrypted storage.

#Node.js

#Express

#MongoDB

Poetry Community

SOCIAL CREATIVE PLATFORM

Built a vibrant community platform for poets to share contemporary works, fostering creative expression through a polished React-based UI.

#React

#Firebase

Zoo Management

FULL-STACK APPLICATION

Developed a dynamic management portal managing animal records and staff schedules with CRUD operations and SQL integration.

#Java

#MySQL

Education

B.Tech in Computer Science

Dayananda Sagar University

BENGALURU | 8 CGPA

Higher Secondary (2nd PU)

Christ Junior College

BENGALURU | 87.33%

SSLC

The Crystal School

BENGALURU | 95.56%

Beyond Code

Poetry

Active writer of contemporary poems, focusing on creative storytelling and expression.

Backpacking

Avid traveler fostering a global perspective, adaptability, and cultural awareness.
